- **As a simple review.** Show your child one side of the card and ask them to say the answer. If they get it correct, turn the card over and show them the other side to confirm. If they get it wrong, repeat the process until they get it right.
- **As a game.** Divide your child into two teams. Give each team a set of flashcards. The teams take turns flipping over a card and saying the answer. The first team to get 10 correct answers wins.

- **As a way to practice mental math.** Show your child one side of the card and ask them to solve the problem in their head. Once they have solved the problem, turn the card over and show them the answer to confirm.

What's Included in the Flashcard Set?

The flashcard set includes 50 cards, each with an addition or subtraction problem on one side and the answer on the other side. The problems range in difficulty from simple single-digit problems to more challenging multi-digit problems.

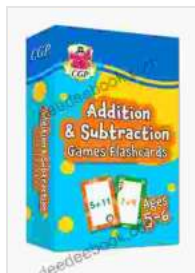

Benefits of Using the Flashcards

There are many benefits to using our Addition Subtraction Games Flashcards, including:

- **Reinforces basic math skills.** The flashcards help children to practice and reinforce basic addition and subtraction skills.
- **Improves mental math abilities.** The flashcards help children to develop their mental math abilities by encouraging them to solve problems in their head.
- **Makes learning fun.** The flashcards are a fun and engaging way to learn addition and subtraction.
- **Provides a variety of activities.** The flashcards can be used in a variety of ways, so you can find the activity that works best for your child.
